Reports on the application of the Lady Superior of the Saint Martha's Hospital for the strip of land adjoining the Hospital premises.

The President states that S. Nos 102, 103, 104 and 150 of the Sampigehalle village were granted for the Hospital in the year 1856 and that according to the sketch furnished by the District Surveyor as per resurvey carried out according to the Bg Commr's order the strip of land in question formed part of S. Nos 104 and 150 and might therefore be said to belong to the Hospital.

Submitted to His Highness

In 1884, a free grant of 18½ acres was made for the construction of St. Maratna's Hospital in Bangalore City. On behalf of the authorities of the Hospital, the Lady Superior applied to the President of the Bangalore City Municipal Council for the free grant of a piece of land measuring about ½ acre lying between the hospital and the City Municipal office The City Municipal Council supported the request of the Lady Superior but Government in their Order No 9846/M1.430-06-2 dated 25th April 1907 declined to sanction the grant of land as it may be required for many public purposes.

2. The Lady Superior made a representation to the Senior Surgeon that the inclusion of the rejected plot was desirable on sanitary grounds A copy of her letter dated 30th November 1907 to the President of the City Municipal Council was also sent to the Senior Surgeon She pointed out to the President that the strip of land denied to her formed part of the original grant in 1884, and her application for

that

that strip was made under a misapprehension as the papers relating to the original grant were then missing and that permission may be accorded for the inclusion of the block applied for It does not appear that any action was taken upon this representation till Col. Smyth moved in the matter.

3. In reporting upon the representation of the Lady Superior, the President of the City Municipal Council reports that the strip in question formed part of Survey Nos.150 and 104 granted for the construction of the Hospital, that the Lady Superior has agreed to leave open a small space between the Municipal Office wall and the Hospital and that the other portion be made over to her for extending the wall

4. Under ordinary circumstances, sanction would have been accorded for the disposal of the site in question. As such a sanction involved the modification of a Government order already passed, the subject was placed before Council The recommendation of the Council that the triangular piece of land asked for may be granted free of cost, may be approved As will be observed from the sketch put up, it is small ill - shaped piece of land upon which no useful public building

Sir,

I have the honor to forward a letter, dated 15-7-1908, from the Revd Mother Superior of St Marthas Hospital It refers to the erection of a part of the boundary wall of the hospital ground - to which the City Council have twice accorded their sanction and the site which the Dewan and Councillor Mr Puttannah Chetty have already inspected, and it is therefore unnecessary for me to go into details I can only recommend that the very early orders of Govern-ment sanctioning the building of the wall be issued, as the Nuns have the money ready and the Contractor is wait-ing to go on with the ork It is a small thing but is -- very important to the hospital, and will be a fitting comple-tion of the excellent wall which, through out the rest of the hospital boundaries, the Nuns have already erected

the land, with a view to verify the statement of the Revd. Mother Superior in regard to the ownership of the strip of land referred to, and according to a sketch (herewith submitted for information) received from him, the strip in question formed part of Survey Nos. 150 & 104 and might therefore be said to belong to the Hospital.

3. A tracing shewing the Hospital with its surroundings is enclosed for reference.

4. The portions coloured PINK and YELLOW form the subject matter of the correspondence. The Lady Superior has applied for permission to take possession of these portions and enclose them by a compound wall. As I thought it necessary to leave some lung space in the interest of sanitation between the Municipal Office and the Hospital, the proposal was made to the Lady Superior. She readily agreed to it in writing, waiving all claim over the part coloured PINK(copy enclosed).

To

Dy Comm and President
City Municipal Council
Bangalore

In March decided before erecting in it all around the Compound of the Hospital, but having mislaid the plan of our ground which was furnished to us with your district No 224 dated 28th July 1884, the Managing Committee of the Institution applies to you in January 1907 for a copy thereof.

2. The application was not complied with, but the District Surveyor subsequently called and informed us that the original of the plan which was returned in your office also not being forthcoming, he was instructed to make a fresh plan of the grounds.

3. The members of our Community who obtained the ground from Government in 1884 having since died, those now in charge were unable to definitely and accurately point out the boundaries, and thus the plan of the ground prepared by the District Surveyor in May 1907 was accepted by

is no doubt that it was granted to us in 1884 with the other Lands, the measurements now made by them corresponding with the original Survey measurements. The Rev. Father Bontraine, who recently came down from Cornwall for the purpose, also positively asserts that to his personal knowledge and recollection, the said strip of ground is included in the original Grant made to us

6 I beg to re-submit the plan given to us from the Municipal Office on which we show in green the strip which the Rev. Survey Department has declared belongs to us, and which our predecessors in office neglected to have in at the time. I also submit copy of the Revenue Survey Map of the Longueuil Village, that portion of Land No 150 now under reference to you being colored green

7. I regret that owing to the overlooking of the original plan both by us and by your office subordinates, and the consequent misconception of our rights in this matter, we were necessitated to apply to you for the grant of the strip in question which had already been made over to the Hospital years ago. Under the circumstances, I beg you will kindly move the Government to accord permission, to continue the erection of the wall on said

Extract from the Visitors Book of St. Martins Hospital, Bangalore City

I have on several occasions visited this Excellent Institution, and such visits afforded one great pleasure. The congested state of the Wards is ample testimony to the popularity of the Hospital as a public Benefit, and I hope this Institution will always continue to receive Syr patticular Consideration at the hands of the Government of His Highness the Maharaja

There are one or two insanitary "factors" present operating prejudicially upon the inmates of the Buildings to the side in proximity to the Municipal Office, which I should like to see removed at an early date, and which if the Revd Mother will just refer to me officially, I shall be glad to take up and do all in my power to remedy
